

# Good Neighbor Framework

Expectations for both sides of the fence:

- Be as friendly and courteous in interactions with the neighbors
- Respect COVID 19 Guidelines- boundaries and masks are important.
- Visitors are not allowed by our licensing requirements after the PAD is open. Visitors before we have young people on site are welcome as we schedule open houses to supporters.
- Be a good digital neighbor- connecting with NWYS on social networking is appropriate with NWYS administrative staff, but not with the young people who are minors.
- Please practice good pet etiquette.
- Respect property lines and maintain property and the cleanliness of the neighborhood for all neighbors.
- Communication – If neighbors have feedback or input for us, we will listen. Communication should come to us via email or call 360-734-9862. Drama can be avoided by simply being upfront and communicative about issues as they arise. We will communicate with the neighborhood association or a neighbor (directly) if we have feedback as well.
- Late or early hours noise restrictions will be followed. Please help us ensure young people have the ability for their quiet enjoyment of their home.
- Protect the welfare of all minors and young people in the neighborhood by not photographing them.
- Foster positive relationships- through communication, updates, and good neighbor attitudes.
